- A: 0 €
- B: 1200 €
- C: 2000 €
- D: 5000 €

Publishing articles a second time  
Open Access is called:

- A: Green Way
- B: Grey Publication
- C: White Method

Publishing articles directly Open  
Access is called:

A: Golden Leave

B: Golden Angle

C: Golden Way

D: Golden Fleece

Data that describes data is called:

- A: Hyperdata
- B: Databases
- C: Descriptive data
- D: Metadata

DOI stands for:

- A: Data Object Identifier
- B: Digital Object Identifier
- C: Data Open Input

PID stands for:

- A: Personal Identifier
- B: Persistent Identifier
- C: Permanent Identifier

## ORCID stands for:

- A: Open Researcher and Contributor ID
- B: Open Repository Constructed for Identification Data
- C: Orchestrated Common Interface Data

The FSU Jena introduced a „Policy on the handling of research data” as well as „Guidelines and recommendations on research data management“.

True or false?

-True-

The FSU runs a repository for the long-term archiving of research data that is produced in research projects at the FSU.

True or false?

-False-

The registry re3data can be used to identify appropriate data journals for the publication of research data.

True or false?

-False-

The Green Way can be used to publish scientific articles a second time in exactly the same format (incl. layout, formatting, etc.) as they were already published in scientific journals.

True or false?

-False-

The accepted author manuscript of  
a scientific article is:

- A: Peer reviewed and commented by the editor
- B: Formatted by the publisher and adjusted to the layout

Research data can be published via  
the Digitale Bibliothek Thüringen  
(dbt).

True or false?

-True-

The Digitale Bibliothek Thüringen (dbt) offers the option to:

- A: Set an embargo period for the publication.
- B: Restrict the access to selected (groups of) people.

-A, (B)-

Research data which is published in the Digitale Bibliothek Thüringen (dbt) can be found by search engines.

True or false?

-True-

The publication of articles via the Green Way is associated with fees.

True or false?

-False-

Scientific articles in Open Access journals are not peer reviewed.

True or false?

-False-

Some journals offer Open Access options in addition to the subscription based access.

True or false?

-True-

Research data is the property of the scientist who produced it.

True or false?

-False-

## Open Science includes:

- A: Open Access
- B: Open Data
- C: Open Software
- D: Open Methodology
- E: Open Peer Review
- F: Open Educational Resources

-A-F-

TEI stands for:

- A: Text Encoding Initiative
- B: Terminology Encoding Initiative
- C: Title Encoding Information

DBT stands for:

- A: Database Terminology
- B: Digitale Bibliothek Thüringen
- C: Datenbibliothek Thüringen

How often should hardware be replaced?

- A: Every 2-5 years
- B: Every year
- C: Every 10 years
- D: Never

Which of the following is not research data?

- A: Laboratory value
- B: Text
- C: Questionnaire
- D: External hard drive

Which of the following is not a criterium of FAIR?

- A: Findable
- B: Accessible
- C: Identifiable
- D: Re-usable

What is the 3-2-1 rule?

-3 places, 2 types of hardware, 1 off-site-

Which of the following is not a data analysis?

- A: Classification
- B: Frequency distribution
- C: Metadata
- D: Tagging
